### Let's Start!

What chemical cleaners do you use at home?

## Learning Outcome

Describe ways of solving problems and getting things done in work and social contexts.

### Ask your partner:

- What types of chemical cleaners do you use at home to do housework?
- Would you consider changing to a non-toxic cleaner? Why or why not?

## Can Do Statements

- I can talk about domestic activities.
- I can talk about solving problems and explain how to do things.
- I can encourage agreement.

## Let's Explore!

Don't mix chemical cleaners and end up in **emergency**\*!

\* "Emergency" or the ER is the room you go to at the hospital when you feel ill or have hurt yourself.

*Instructions: Read the text aloud.*

Cleaning can be a very tedious task, don't you think? You need to know how to clean and what to use to do it. Cleaning can be dangerous too. Don't you want to take the proper precautions to be safe while doing it? Of course you do. Here are some tips to make sure your cleaning experience is a positive one. For wiping floors, sinks and tiles, you may want to use chemical cleaners. First, check the label. Use the correct amount. Too little won't clean properly. Too much can be toxic or hurt your hands. You might also want to wear rubber gloves.

Don't mix cleaners together. This can produce toxic fumes that can be detrimental to your health. Wouldn't you prefer not to end up in emergency? Leaving cleaners accessible if you have children is also a big hazard. Don't you agree? Make sure that they are up high or in a cupboard with a childproof lock.

Vacuuming can also pose a risk if not handled correctly. Plug it into an outlet that isn't overcrowded. You wouldn't want to start a fire or get a shock, would you? Move things out of the way so you don't trip. Pick up anything that could block the vacuum hose when sucked in, such as pins, or cotton balls! You don't want to have to get your vacuum repaired, do you? Cleaning your house can be hazardous if you don't take the right precautions. So, isn't it better to be safe than sorry?

## Let's Practice!

Don't you think that cleaning can be tedious?

*Instructions: Proofread the sentences. Correct the mistakes. Read the sentences aloud. Check your pronunciation with your instructor.*

1. Clening can be a very tedius task, don't you think?

---

2. You want to take the proper precutions to be safe while doing it.

---

3. For wipin floors, sinks and tiles, you may want to use chemical cleaners.

---

4. Vacuuming can also pose a risk if not handled correctly.

---

5. You might also want to wear rubber gloves.

---

## Let's Practice!

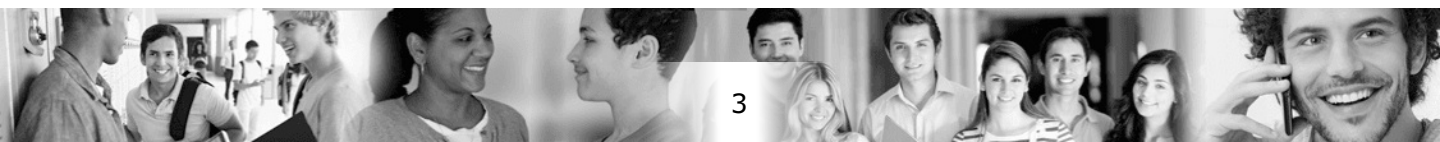

Let's learn about how to use a vacuum cleaner ...

*Instructions: Read the paragraph. Complete the gaps with the words from the Word Bank.*

### Work Bank

- would you
- Pick up
- do you
- Move things
- Plug your vacuum

\_\_\_\_\_ into an outlet that isn't overcrowded. You wouldn't want to start a fire or get a shock, \_\_\_\_\_? \_\_\_\_\_ out of the way so you don't trip. \_\_\_\_\_ anything that could block the hose when sucked in. You don't want to have to get your vacuum repaired, \_\_\_\_\_?

## Extension Activity

Find some recipes for non-toxic household cleaners.

*Instructions: Complete the following steps. Fill in the Self-Assessment.*

- Go online and find out what recipes are available for non-toxic cleaners for your house.
- Take some notes.
- Use the notes to write up summaries for three cleaning alternatives.
- Read these to an adult you know and find out what they think of these cleaners and whether they would be interested in trying them.
- Bring your recipes and comments to class.
- Share the findings with a partner and discuss them.

### Self-Assessment

Yes No

I look up alternative non-toxic recipes for household cleaners.

☐ ☐

I write summaries on my findings for three cleaners.

☐ ☐

I ask an adult for their opinion on them.

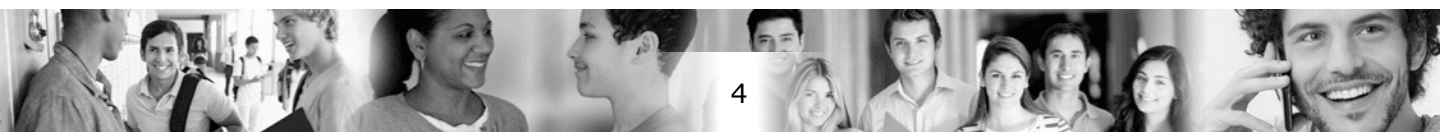

☐ ☐

I share my recipe and comments made by the adult with a partner and discuss them.

☐ ☐

## Target Words

- proper** (adjective): adapted or suitable to the purpose or circumstances; fit  
e.g. Don't you want to take the proper precautions to be safe while doing it?
- precaution** (noun): an action taken beforehand to protect against possible danger or failure  
e.g. Cleaning your house can be hazardous if you don't take the right precautions.
- to wipe** (verb): to rub, move, or pass (a cloth, for example) over a surface  
e.g. For wiping floors, sinks and tiles, you may want to use chemical cleaners.
- detrimental** (adjective): can cause harm  
e.g. This can produce toxic fumes that can be detrimental to your health. Wouldn't you prefer not to end up in emergency?
- tedious** (adjective): boring; time-consuming  
e.g. Cleaning can be a very tedious task.
- childproof** (adjective): made safe so young children cannot get into  
e.g. Make sure that they are up high or in a cupboard with a childproof lock.
- label** (noun): an item used to identify something or someone, as a small piece of paper or cloth attached to an article to designate its origin, owner, contents, use, or destination  
e.g. First, check the label of the detergents.
- fumes** (noun): vapour, gas, or smoke, especially if irritating, harmful, or strong  
e.g. This can produce toxic fumes that can be detrimental to your health. Wouldn't you prefer not to end up in emergency?
- rubber gloves** (noun): gloves made out of rubber worn to protect the hands while performing tasks involving chemicals  
e.g. You might also want to wear rubber gloves.

## Learning Points

### Negative Questions To Encourage Agreement

Negative questions have a different meaning than regular questions.

A negative question can be used to ask for confirmation of something you believe to be true.

- *Wouldn't you prefer not to end up in emergency?*
- (= *I think you would prefer to not end up in emergency.*)

With this type of question, you anticipate that the listener will agree with you and answer 'yes'.

Sometimes, the question can come at the end of the statement. This is more casual.

For example:

*Cleaning can be a very tedious task, don't you think?*

#### Examples:

- *Don't you want to take the proper precautions to be safe while doing it?*
- *Don't you agree?*
- *Isn't it better to be safe than sorry?*
- *You wouldn't want to start a fire or get a shock, would you?*
